## Retraction note to: *Skeletal Muscle* (2016) 6:7 <https://doi.org/10.1186/s13395-016-0075-9>

The Editors-in-Chief have retracted this article. Following concerns raised by the corresponding author, an investigation by McMaster University confirmed concerns with Figs. 3 and 4 of this article, specifically:

- Figure 3b: the VDAC band appears to be identical with the Actin band of Fig. 3b of the original article
- Figure 4d overlaps with Fig. 4b of the original article

The Editors therefore no longer have confidence in the reliability of the data reported in the article.

Adeel Safdar, Konstantin Khrapko, Ayesha Saleem, Michael De Lisio, Adam P. W. Johnston, Imtiaz A. Samjoo, Yu Kitaoka, Daniel I. Ogborn, Jonathan P. Little, Sandeep Raha, Gianni Parise, Mahmood Akhtar, Bart P. Hettinga, Glenn C. Rowe, Zoltan Arany and Mark A. Tarnopolsky agree to this retraction. James M. Flynn, Yevgenya Kratysberg and Tomas A. Prolla have not responded to correspondence about this retraction.
