Retraction Note: Phycoremediation of automobile exhaust gases using green microalgae: a twofold advantage for pollutant removal and concurrent biomass/lipid yields

Pooja Kandimalla*, Priyanka Vatte and Chandra Sekhar Rao Bandaru

Retraction Note: *Sustain Environ Res* 30, 4 (2020)

<https://doi.org/10.1186/s42834-020-0046-z>

The Editor-in-Chief has retracted this article because it shows substantial overlap in both data and text with another article [1] by the same authors that was submitted and published within a close time frame. As the results presented are for a different species of microalgae from that reported in [1], the Editor-in-Chief no longer has confidence in the conclusions presented. All authors agree with this retraction.
